Interdisciplinary ML - Bridging Gaps and Building Graphs

Hello!

Welcome to the first iteration of Interdisciplinary ML: Bridging Gaps and Building Graphs!

Goal

- To foster connections between researchers in different subdisciplines of deep learning by sharing experiences and personal backgrounds

Timeline

- (15 minutes) - Introduction to activity to foster social connections

- (25 minutes) - First pairing session, Form Submission Cut-off Time is **8:15 PM UTC**

- (25 minutes) - Second pairing session, Form Submission Cut-off Time is **8:40 PM UTC**

- (25 minutes) - Third pairing session, Form Submission Cut-off Time is **9:05 PM UTC**

- (30 minutes) - Wrap Up Discussion

Pair Meeting Instructions

- Ask questions about your partner's field
- Ask how/why they chose their specialization
- Explore what similarities you can find in their fields or personal lives
- Finding similar issues in research or personal connections such as leisure activities?

Tools and Guidelines

- Google Jamboard to document and visualize these connections
- Please designate one person from each group to edit the Jamborad
- Please do not aggressively manipulate the Board or delete other's work
- Please keep edits small so others may expand on the work
